

## Introduction project *Green-X*\*

\* funded by the EC DG RESEARCH (FWP 5)  
Contract No: ENG2-CT-2002-00607

## *Objective of the Project* **Green-X**

- To facilitate a significant increase of RES-E with **minimal costs to European citizen** by developing a dynamic toolbox **Green-X**
  - Identify most important strategies for RES-E
  - Find efficient und sustainable instruments integrating RES-E, CHP, DSM and GHG-reduction
  - Disseminate the toolbox and the results to key stakeholders and policymakers

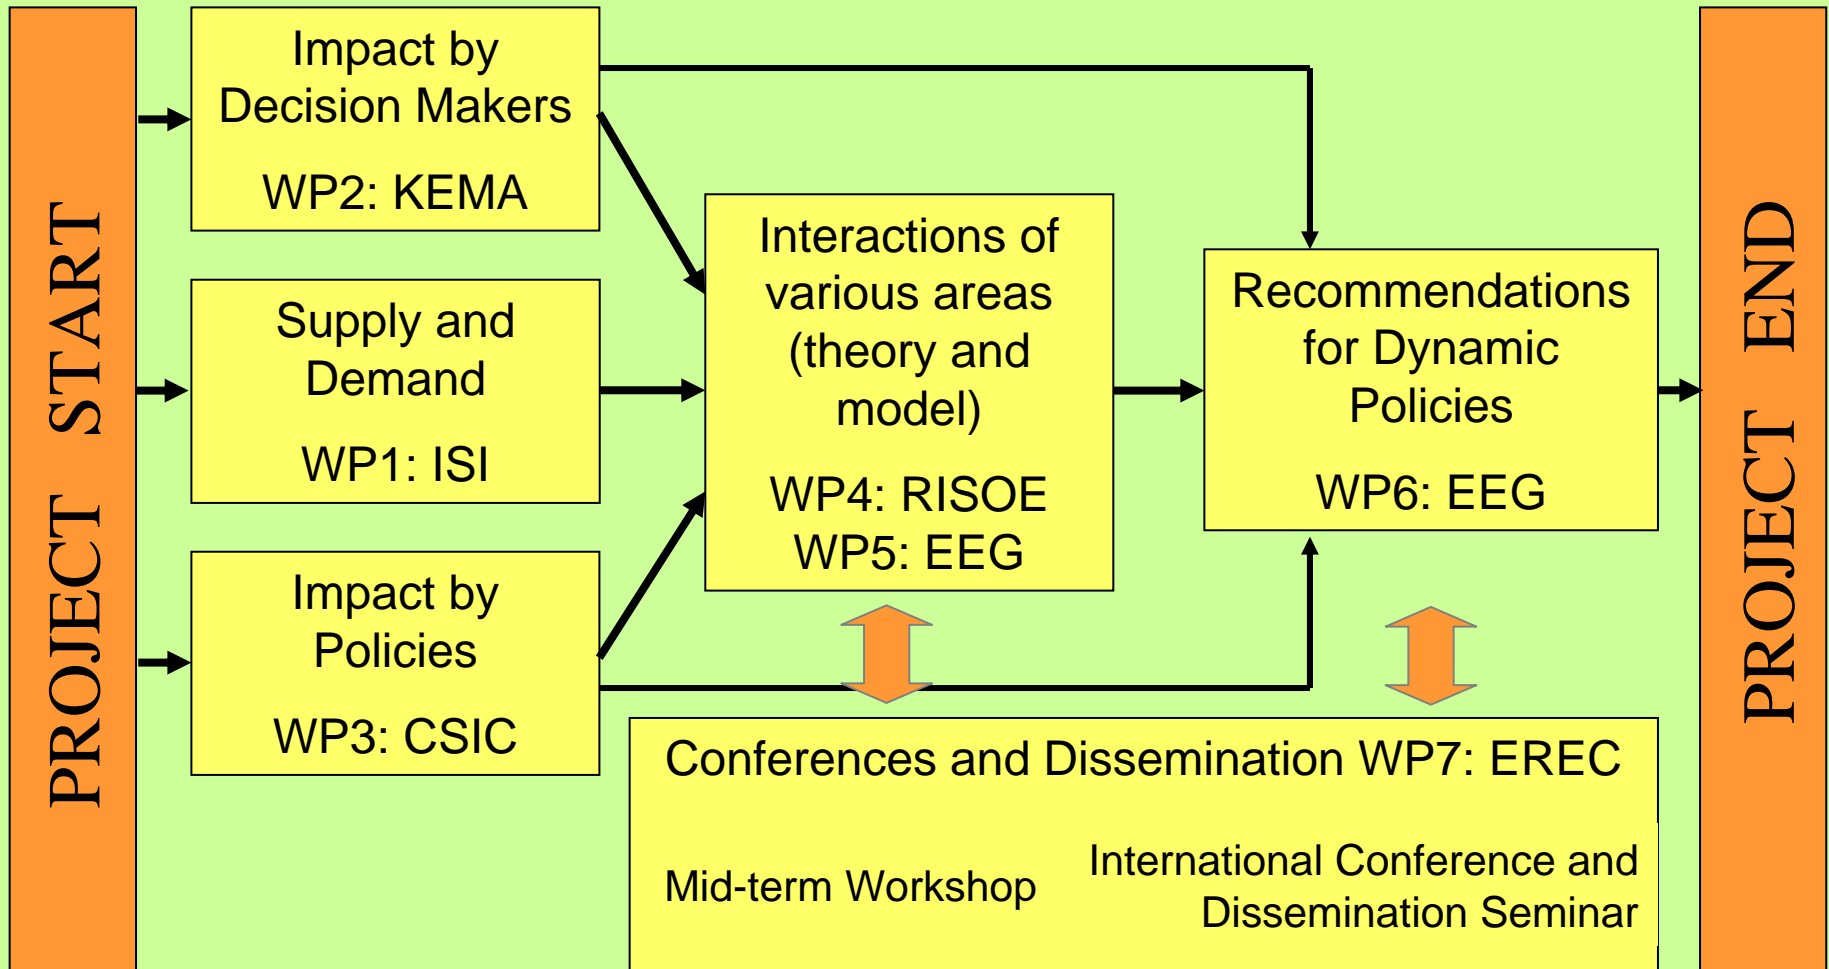

# *Project Consortium*

# Overview Project Work Packages

## Product

### Toolbox *Green-X*

Computer model  
Database  
RES-E generation  
con. electricity generation  
CHP generation  
Demand side activities

## Recommendations

WP 2 (Decision making by stakeholders)  
WP 3 (Evaluation of promotion strategies and barriers)  
WP 4 (Trade-offs, Interactions)  
WP 6 (results of the simulation with the help of the toolbox *Green-X*)  
WP 7 (Discussions at conferences and dissemination activities)

## Dissemination

Conferences and dissemination seminars  
Reports  
CD containing the toolbox *Green-X*
